

2018 New Student Survey Report - Transfer Students

Prepared by Institutional Research and Decision Support Last

Updated: December 14, 2018

Administration: The survey was administered between October 21, 2018 and November 19, 2018 to all incoming first year students (entering frosh and transfer students). No incentives were offered. Survey publicity and outreach was coordinated by IRDS, with help from School Assessment Managers, Academic Advising units, and Student Affairs staff. Promotion included email, Facebook posts, digital signage around campus, and classroom/LMS announcements. A survey landing page was used in publicity materials (http://irds.ucmerced.edu/new_student_survey.html).

Response Rate: Of the 2408 students invited to complete the survey, 933 (39%) provided partial or complete responses. Because students could skip questions, response rates varied by question.

Respondent Characteristics: Please refer to Tables 1-3 below for respondent characteristics, including information about the representativeness of the respondent sample relative to the invitee population. These tables are static and cannot be filtered. The respondent sample was roughly representative of the invitee population with one exception - females were more likely to respond than males.

Other Notes:

- **Number of responses:** Unless otherwise noted, respondents could answer each question on the survey; however, only certain respondents could complete some questions based on their prior responses or characteristics. See the question notes for more information. Additionally, respondents could skip questions. Thus, there will be discrepancies between the overall number of respondents and the number of respondents that answered particular questions.
- **Fee response questions:** Free response question responses are not included in this report for several reasons. They require response coding to analyze, and coding schemes are often developed with a research question in mind. Additionally, in some cases free response data can inadvertently identify particular respondents who completed the survey, thus violating confidentiality. Interested parties should request these data from IRDS so that individual requests can be evaluated.

If you have questions about this report, please contact Andrea Hall-Cuccia (ahallcuccia@ucmerced.edu) in Institutional Research and Decision Support. This report and more information about this survey can be found on the IRDS New Student Survey webpage: http://irds.ucmerced.edu/new_student_survey.html
